Congratulations on your progress in writing this assignment for [class]. [Advisors should feel free to add compliments, encouragement or other personal statements to establish warmth and connection. It’s helpful to compliment a specific writing-related skill or strength, and then explain why it is a strength, i.e. “This is what you did well, and this is why it benefits your writing”]

My name is [your name], and it’s my pleasure to work with you today. [Advisors may insert video or audio greetings here. YouTube is an excellent program for inserting video welcome messages. This handout explains how to insert an online video in a Word doc in a few simple steps.] Before we begin, let’s review a few important guidelines and resources:

- Students may submit one request for advice (either written feedback or live online advising) every 48 hours.
- You are welcome to come to the Effective Writing Center for help at any stage in the writing process, whether you are just getting started an assignment or want feedback on a rough draft.
- Resources to help you revise your writing assignment are hyperlinked within this letter and in the More Resources section at the end.
- Before reading this advice, please review the writing that you submitted. We’ve pasted your draft at the end of this advice letter.

At the EWC we are attentive readers who help you improve as a writer by explaining and modeling effective writing skills. For a more detailed discussion of our services, please click this link and visit the Effective Writing Center web site.

Advice Overview

We will discuss the following strategies that can help you to strengthen your paper:

- [Here the advisor alerts the student to what will occur during the advising session and what areas will receive special attention](#).

In addition, if using a **system of color-coding** (student’s text in one color and the advisor’s in another, etc.), this is explained [here](#).

Although we will cover revisions and rules, your professor’s instructions always take precedence over any advice you receive from the EWC. If you have any questions, refer to your assignment guidelines first and don’t hesitate to ask your professor to clarify any unanswered questions.

Assignment Management

Thank you for submitting the assignment requirements. Our goal is to ensure that your paper meets your professor’s assignment requirements as closely as possible, so this information is a big help!
If the student has not submitted an assignment description, it’s helpful to remind them that they can just copy and paste info from their assignment sheet into the submission form when students omit this, there’s a good chance that they just didn’t know that they could include or that it would help to include it.

Below is a table with an overview of your assignment, what you have completed, and what you need to fulfill the requirements.

Here the advisor compares the assignment requirements to what the student has submitted. When the student includes an assignment description with the submission, please use a table in this section that lists (1) each assignment requirement; (2) what the student has provided for that requirement; (3) what is needed, if anything, to fulfill the requirements.

All explanations within the four main sections of the template should include specific reference to the student’s paper, via a description of what’s in the paper or copying and pasting of excerpts from the paper; explanations, models, and strategies to aid in revision; and a video thumbnail or descriptive hyperlink to a resource where the student can learn more.

Note about hyperlinks: In order to make the template as accessible as possible to writers using assistive technology, we ask advisors to make the link descriptive, rather than using just a URL. So for example, instead of
